Carolina Country Adventures

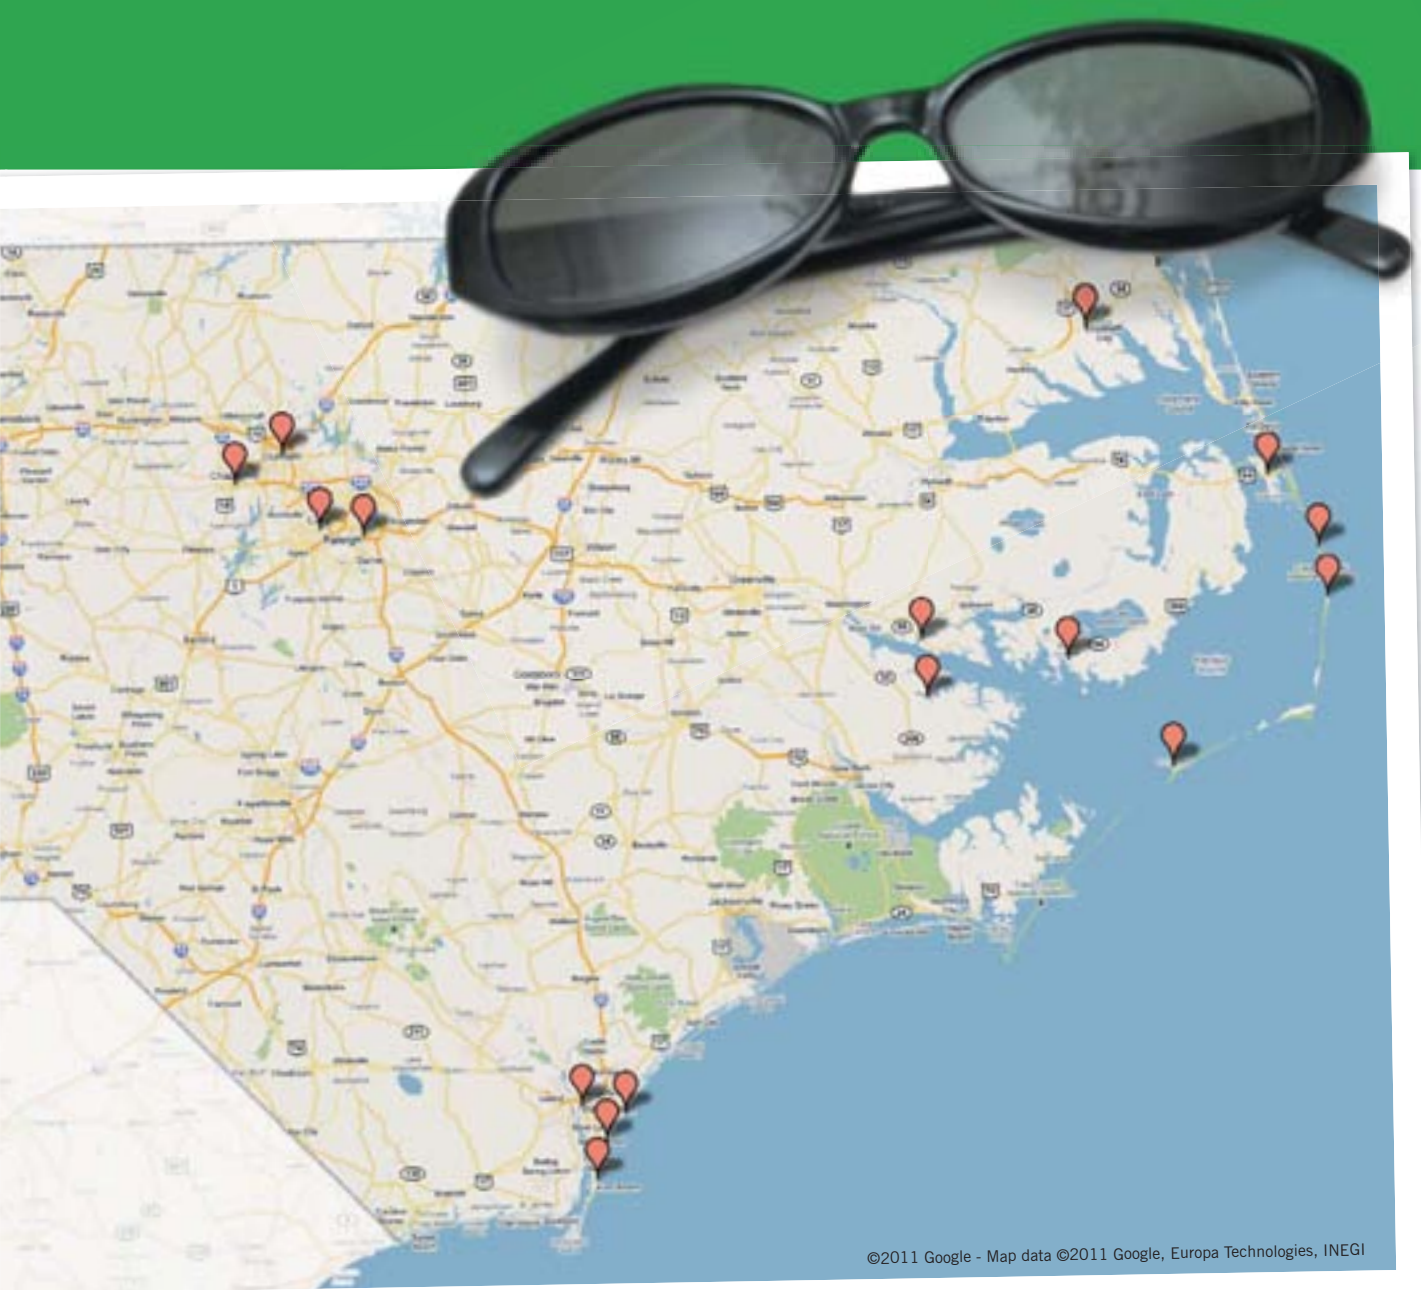

From one end to the other, North Carolina is about as diverse as any state in the nation. We've got hard gemstones in the west, soft crabs on the coast and red clay in the middle. The tobacco we grow in the mountains is different than what we grow in the east. What we live in, how we drive, what we eat and how we talk varies from one region to another.

Our annual Touchstone Energy Travel Guide encourages you to experience this variety firsthand.

This year, we offer you six great travel stories about interesting areas in the mountains, Piedmont and coast. We've also updated the primary sources of general information about regions in our resource listings. The adventures we offer may be familiar to you, or they may not. In any case, each holds the promise for a lot of travel fun.

As you make your way through this guide and through the countryside, you can be assured that a Touchstone Energy cooperative is nearby.

Thanks to everyone who helped us compile this guide, and to our sponsors: the cooperatives and the advertisers on pages 36 to 38.

I PULLED THE PLUG ON MY ENERGY COSTS JUST BY PULLING A FEW PLUGS.

TVs, gaming consoles, DVRs, cable boxes and almost anything that has a plug uses energy even when it's off. I'm saving \$222 a year by pulling plugs and turning off power strips. What can you do? Find out how the little changes add up at TogetherWeSave.com.
